- 3. Inoculations, Spayed, and Neutered:** All pets must be current in their vaccinations and inoculations. All dogs and cats are required to be spayed or neutered.
- 4. City Ordinances:** Pet owners must comply with all city ordinances, including, but not limited to:
  - 4-7-2 ..... License required
  - 4-7-6 ..... Dog tags required
  - 6-1-7 ..... Improper care of animals prohibited

  - 6-1-18 ..... Removal of animal excrement required

  - 6-1-20 ..... Aggressive animals prohibited
  - 6-1-22 ..... Animals as nuisance prohibited
  - 6-1-22 ..... Nuisance cat prohibited
- 5. Unit Care and Inspection:** Resident agrees to maintain the unit in a sanitary and odorless condition. Resident shall be responsible for the immediate and appropriate removal of any feces deposited by the animal. Do not dispose of cat litter by flushing it down toilets. Charges for unclogging toilets or cleaning up common areas attributed to pet nuisance will be billed to and paid for by the Resident.

- 6. Sick or Injured Animals:** No sick or injured animal will be accepted for occupancy without consultation of and written acknowledgement by a veterinarian detailing the condition of the animal and its ability to live in an apartment situation. Denial of the animal regardless of documentation and consultation is the prerogative of management. If the illness or injury can be transmitted to people, other animals, or in some way makes the animal dangerous, the animal may not be brought on the premises.
- 7. Resident's Absence:** If for any reason the animal is left unattended for more than twelve hours, BHP may contact a designated alternative care provider, and that person will be required to enter the unit and remove the animal. If the alternative care provider cannot be reached, the animal may be placed in an appropriate boarding facility with all costs and fees borne by the Resident. Within five days of an emergency, the Resident, the Resident's agent, family or estate shall make arrangements with the holder of said animals as to its disposition and shall be responsible for all obligations, financial and otherwise, for the actions taken on behalf of the Resident, or the wellbeing of the animal. In the event the Resident can no longer care for the animal due to health concerns, the Resident agrees to remove the animal from the unit.
- 8. Animal Behavior and Violation of Policy:** Upon receipt of a verified animal complaint, BHP will issue a written warning to the Resident. If the animal bites or attacks any person, it shall be promptly removed from the unit and may not return. The Resident must certify the animal is no longer living in the unit and will not return in the future. Misrepresentation of this certification or refusal to remove the animal will be grounds for eviction of the Resident. BHP reserves the right to act immediately in animal removal situations deemed an emergency.
- 9. Unauthorized Pets:** If BHP discovers a Resident has one or more pets which have not been registered and approved as required by this policy, the Resident will be issued a lease violation. Resident shall then have three days from notification to remove the pet from the apartment or legal proceedings may be initiated.
- 10. Liability:** The Resident shall be strictly liable for the entire amount of any injury caused by their animal to the person or property of another resident, a neighbor, or a member of BHP staff.

## **Service Animals and Assistance Animals**

**Service Animals** are any animals that are individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. The provision of emotional support, well-being, comfort, or companionship does not constitute work or tasks for the purposes of this definition. Trained dogs and trained miniature horses are the only species that may qualify as service animals under the ADA. Emotional support animals are expressly precluded from qualifying as service animals under the ADA.

**Assistance Animals**, which are sometimes known as companion animals and emotional support animals, are not required to be trained and there are no breed and/or species limitations. They are animals that work, provide assistance, perform tasks for the benefit of a person with a disability, or provide emotional support that alleviates one or more identified symptoms or effects of a person's disability. Assistance animals perform many disability-related functions, including but not limited to, guiding individuals who are blind or have low vision, alerting individuals who are deaf or hard of hearing to sounds, providing protection or rescue assistance, pulling a wheelchair, fetching items, alerting persons to impending seizures, or providing emotional support to persons with disabilities who have a disability-related need for such support.

### **BHP Lease regulations for service and assistance animals are as follows:**

Resident will be subject to repair costs for damage to the premises caused by the service and/or assistance animal. Service and assistance animals are not subject to breed and species restrictions, public access restriction, animal licenses or certification, and size limits.
